PROFESSIONAL SUMMARY

Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning, with experience in Python development, machine learning, NLP, computer vision, SQL, and API integration. Developed AI-based OCR and sentiment analysis projects and a Python chatbot integrating the Google Gemini API to answer user queries during an internship. Familiar with Generative AI fundamentals, prompt engineering, RAG fundamentals, and Agentic AI concepts.

TECHNICAL SKILLS

Programming: Python, SQL, Java, C
Data Science & ML: NumPy, Pandas, Scikit-learn, Matplotlib, data preprocessing, model evaluation
Generative AI: Google Gemini API, LLM fundamentals, prompt engineering, RAG fundamentals, Agentic AI concepts
Computer Vision & OCR: OpenCV, Tesseract OCR, Pytesseract, image processing
APIs & Backend: REST APIs, JSON, Google Sheets API, Node.js
Databases: SQL, MySQL, MongoDB
Web Technologies: HTML, CSS, JavaScript
Tools: Git, GitHub, Google Colab, VS Code, Figma, GitHub Pages

EXPERIENCE

Web Development Intern — Society of Mechanical and Automotive Engineers (SMAE)
March 2026 – August 2026

- Redeveloped the SMAE website using HTML, CSS, and JavaScript to improve responsiveness and user experience.
- Developed a Python-based chatbot integrating the Google Gemini API to generate responses to user queries and support conversational interactions.
- Worked with SQL on form-related data during internship activities.
- Integrated the Google Sheets API for form data management and implemented CAPTCHA verification and automated email confirmations.
- Tested, debugged, and optimized website functionality across desktop and mobile devices.

PROJECTS

ANANTHA-LIPI — AI-Based Manuscript OCR System | **Python, OpenCV, Tesseract OCR, Pytesseract**

- Developed an OCR application for Sanskrit and Telugu manuscript digitization.
- Applied grayscale conversion, noise reduction, and thresholding to improve manuscript image quality for text extraction.

AI-Based Flipkart Review Analysis System | **Python, NLP, Scikit-learn**

- Built a sentiment analysis model to classify customer reviews as positive or negative; analyzed 100+ reviews and reported 80% classification accuracy.

Personal Portfolio Website | **HTML, CSS, JavaScript, GitHub Pages**

- Created and published a portfolio website using AI-assisted development in VS Code. View portfolio

EDUCATION

B.E. — Computer Science and Engineering (AI/ML)
Sri Chandrasekharendra Saraswathi Viswa Mahavidyalaya, Kancheepuram, Tamil Nadu
Expected graduation: May 2027 | CGPA: 7.8/10 (verify current value before submitting)

CERTIFICATIONS

NPTEL — Java Programming | 86% | 2025
Google — Python Certification (Coursera) | 2025
Oracle — SQL Training & Certification | 2025
Infosys Springboard — Data Science Using AI | 2025
PrepInsta — Web Development (Frontend & Backend) | 2026
PrepInsta — NLP & Deep Learning | 2026
PrepInsta — Generative AI (include only if completed)
